- 9:15am - 11:45am **Incident Management Seminar:** Managing a large crash is serious and difficult. Planning ahead by writing and practicing a crisis management plan is critical to the success of your business after a large crash or incident. This seminar will provide two outcomes; the first will be for each company attending to write and/or review their serious incident plan and the second is that the group will practice managing a crisis by participating in a crisis simulation. The simulation will include the group working together to identify, manage, communicate, and resolve a fictitious crisis/crash event. The participants will work together as a team and solve problems and issues presented including communicating with each other, first responders, media, Customers, and families.
